NPL Services for Examiners

Thursday, December 30, 2004

STIC's mission is to connect examiners to critical prior art by providing information services and access to NPL electronic resources and print collections. A STIC facility is located in each Technology Center.

Most of the electronic resources listed on this site are accessed via the Internet. Please obey USPTO "Rules of the Road (PDF Text)" when using Internet resources.

Full text available: pdf(58.62 KB) Additional Information: full citation, abstract, index terms

This paper discusses the user-centered location model used in comMotion. In this context, the location model refers to a set of learned places (destinations), which coincide to a latitude and a longitude, that the user has categorized. It also includes knowledge of the routes between the destinations and the time it takes to travel them. The model is based on user experience, i.e. his patterns of mobility, so no two models are the same. We also discuss the pattern recognition models imple ...

Keywords: GPS, Hidden Markov model, Histogram modeling, Location model, Locationaware, User model

⁵ Information technology and organizational change

Patricia Carlson

October 1999 Proceedings of the 17th annual international conference on Computer documentation

Full text available: pdf(1.41 MB) Additional Information: full citation, abstract, references, citings, index terms

My paper considers the impact of emerging, integrated information technology (IT) and information systems (IS) for a research and development organization. Background research was conducted during the period of 15 June - 28 August, as part of an Army Summer Faculty Research and Engineering Program grant. More specifically, this document discusses the interaction of corporate culture, leadership/management, human resources, and advanced networking and web-based applications (more commonly ca ...

Keywords: information technology, intranet, workplace re-engineering

6 A plan for producing a conventional Ada library

Marin D. Condic

September 2003 ACM SIGAda Ada Letters, Volume XXIII Issue 3

Full text available: pdf(294.13 KB) Additional Information: full citation, abstract

There is a general consensus that Ada would benefit from having a library of tools available that would be standard across most or all implementations. This paper discusses how to get a "standard" I ibrary for Ada without impacting the ARM, increasing the leverage available to Ada developers, providing an enhanced product for the Ada compiler vendors, sparking new interest in Ada and perhaps building a financially successful business in the process.

⁷ A summary of domain analysis experience by way of heuristics

W. Lam, J. A. McDermid

May 1997 ACM SIGSOFT Software Engineering Notes , Proceedings of the 1997 symposium on Software reusability, Volume 22 Issue 3

Full text available: pdf(1.69 MB)

Additional Information: full citation, references, citings, index terms

Keywords: domain analysis, domain engineering, requirements reuse
